**PATRIOT**  
*Homecare Bed Series*

Introducing the new Patriot Semi-Electric Homecare Bed with a GRID SLEEP SURFACE!

*Slots in frame ensure proper rail placement*

*Locking pins secure frame to sleep deck*

Designed and engineered by the same team who develop the GF Long Term Care beds.

Sleep surface and motors are **MADE IN THE USA!** 

- The motor unit and bed design provide the ultimate in quiet, smooth operation.
- Complete welded steel frame construction.
- The head and foot sections can be raised or lowered simultaneously or independently with one hand control.
- During a power failure the motor unit can lower both the head and foot section with just a single standard 9 volt battery.
- Assembles easily with just five components.
- Designed to meet the requirements of applicable HCPCS codes.
- Total bed weight assembled: 166 lb (bed and motor only).
- Available with Fiberboard Decorative Walnut Bed-ends or High-impact Plastic Bed-ends.
- Maximum patient weight 350 lbs.
- 450 lb evenly distributed total weight capacity including patient, mattress, rails, and accessories.
- Bed Height: Min. 15", Max. 24" (at deck level).
- Lift Range: Head - 60°, Knee - 30°.
- Overall Bed Size: 87" L x 36" W.
- No external pinch points!
- Slots in frame to ensure proper rail placement.
- Locking pins secure bed ends to sleep deck. Attached lanyards prevent loss while moving or storing.
- Only homecare bed to offer a 4-inch extension kit that can extend either the head, foot, or both head and foot decking. Bed length will be 84" with one kit, 88" with 2 kits.
- The only homecare bed to offer optional corner mattress retainers .

**Grid Deck offers the following advantages:**

- Much stronger frame.
- Better mattress support.
- No spring sag or bottoming out with heavier patients.
- Easier to clean.
- No connecting links or springs to lose.
