

EW-46 Specifications

Drive up to 13 mph for up to 35 miles on a single charge with EWheels highly anticipated EW-46. This fun-to-drive electric scooter mobility scooter features front and rear suspension for a smoother ride, while 16" pneumatic tires allow you to drive effortlessly over varied terrain.

The EW-46 fully adjustable large captain's seat is one of the most comfortable seats around and it holds up to 400lbs!

An easy to read LED console shows estimated speed, mileage and battery display for comfortable navigation.

A full LED lighting package delivers exceptional visibility with directional turn signals, brake lights and ultra bright headlight with both rear and side LED running lights.

Dual rear-view mirrors allow you to see what's behind you, while the electromagnetic hand-braking system ensures safe braking.

Also the sturdy front steel bumper protects you from the unexpected.
